Minimum information required for all species not on the main tally list is Specific Location of observation and Names of Observers. Please also add ID details, photos, or audio you may have, where appropriate.

Michigan Natural Features Inventory (MNFI) documentation forms are available for printout at <http://mnfi.anr.msu.edu/contact/surveyforms.cfm> (If the link does not work directly, you may have to download the linked file and fill it in offline.)

RARE BIRD documentation forms are available for printout at <http://mibirdrecords.com/rare-bird-form/>

Please submit MNFI forms to the address on the form. Submit the long, rare bird forms to the Rare Birds Committee and also to Juliet at:
929 Loyola Drive
Ann Arbor, MI 48103
juliet.berger@gmail.com

Having a copy of each form before the count will alert you to what information you should provide. Please try to get a photo or audio of any rare species. Audio should be easy to obtain by using the Voice Memo feature on most mobile phones.

Prompt notification of unusual sightings to birders@great-lakes.net and to Juliet Berger at 734-604-1476 (call or text) will be greatly appreciated.
